

SHIFTING LARGE-SOLIDS HANDLING TO A WHOLE NEW LEVEL.

Introducing the world's most energy-efficient large-solids handling pump in its class. Period.

The all new...

PRO-FLO®
SHIFT

PROGRESSIVE PUMP TECHNOLOGY

- Best-in-class energy-efficient Air Distribution System (ADS)
- Up to **60% savings** in air consumption over competitive AODD pump technologies means greater yield per SCFM used
- Ease of maintenance with fewest ADS parts in the industry
- Rugged design excels in transferring slurries with large solids in the toughest environments
- Submersible with no electronic parts

See the proof at

profloshift.com/proof

**Simple. Reliable. Efficient. And now,
ready for large solids and slurries.**

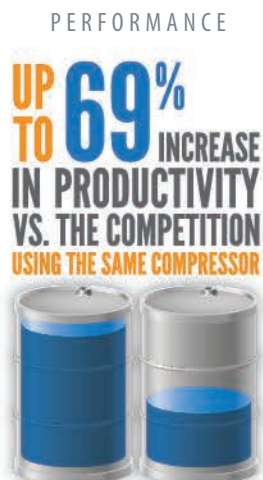

The Wilden Pro-Flo® SHIFT Air Distribution System (ADS) offers sustainable value by providing the most efficient pump in its class. The patent-pending Pro-Flo SHIFT Air Control Spool automatically adjusts to varying system parameters to reduce energy consumption by eliminating over-filling of the air chamber. Best of all, Pro-Flo SHIFT is easy to use... just ***"Plug, Pump, and Save."***

WILDEN®

Designed to easily handle slurries with large solids in the toughest applications, the revolutionary Pro-Flo SHIFT offers unmatched efficiency and the fastest return on investment. The Wilden Pro-Flo SHIFT optimizes AODD pump efficiency while maximizing product yield by addressing a number of crucial areas of performance, including:

Pro-Flo SHIFT Model	Inlet/Discharge	Max Discharge Pressure	Max Solids Size	Max Suction Lift	Max Flow
PS810 Brahma	51 mm (2")	8.6 bar (125 psig)	51 mm (2")	7.4 m (24.3') Dry 9.0 m (29.5') Wet	640 lpm (169 gpm)
PS1510 Brahma	76 mm (3")	8.6 bar (125 psig)	76 mm (3")	7.1 m (23.3') Dry 9.0 m (29.5') Wet	882 lpm (233 gpm)
