Logistics

# How soon can I get my parts?

# How soon can I get my parts?

From our European Distribution Centre in Lelystad in the Netherlands we can deliver products and parts on stock within 48 hours to most places in Europe. The distribution centre supports all AxFlow operations in Europe (with over 20,000 customers).

The distribution centre also provides a web-based order tracking system so you can follow your pump all the way to your site.

Efficiency and accuracy of order handling is a paramount. Therefore our distribution centre uses Electronic Data Interchange (EDI) or (Semi EDI) with our key suppliers.

## Not just a pump in box

The distribution centre also conduct assemblies providing you with a complete pump unit within a few days.

With the advantages of one central stock the distribution centre has full control of the lead times, logistics and the complex order flow. Some key parts are stored locally.

Our complete portfolio of services includes:

Consultancy

Emergency

Installation

Logistics

Maintenance and repair

Quality Assurance

Contracts

System/pump Monitoring

Systems Design

Training
